Community Excursions

Many learning opportunities happen within the community. The school would like to ensure that parents/guardians are aware that students may, from time to time, leave the school grounds during the school day. Students will always be under the direct supervision of a teacher during such excursions, and would be walking. Examples of such excursions would be to visit the Library, Museum, Post Office or Nursing Home.

Parents will be informed of excursions by the teacher before they occur.

I hereby consent that my child may be taken on community excursions authorized by the Parent Committee during the school year.
